

 **VoLTE & ROAMING as a SERVICE**

TelcoVillage not only provides a virtualised IMS Core to your Network for VoLTE, but also CELLULAR CONNECTIVITY with ROAMING as a SERVICE with LOCAL PRICING in 160 Countries.

 **VoWiFi & WiFi CONNECTIVITY as a SERVICE**

TelcoVillage not only provides a virtualised IMS Core to your Network for VoWiFi, but also unlimited WiFi Connectivity at over 20 million WiFi hotspots in 100 Countries.

“To get the full benefits while Voice Services move from Circuit Switched Networks to Packet Switched Networks, it is not only important to supply the right technology, but also to aggregate the necessary network coverage. A network coverage that goes beyond the borders of the own network.

Christos Omidis
